PRESS STATEMENT ON THE ATTACK ON THE CIRCUIT COURT IN KUMASI

We have followed media reports of the attack on the Circuit Court in Kumasi by the so-called “Delta Force”. There have been reports of similar attacks in recent past perpetrated by the same group.

We condemn such attacks on innocent Ghanaians who are performing their official duties. This is a shameful act and an affront to rule of law.

We are encouraged by the assurances from Honourable Ministers for the Interior and National Security that any member of political vigilante groups involved in such acts will be dealt with in accordance with the laws of Ghana. These statements are a step in the right direction. But statements are not enough to prevent such attacks.

Ghanaians are, therefore, waiting anxiously to see the action government will take against the groups involved in such despicable acts and those who are funding such activities.
